

Xitanium 48W 0.7-1.05A 46V TD DS 230V I

TAKTON

Benefits:

- High quality of light -assurance of camera and scanner-friendly performance
- High reliability
- Optimized performance at specific output current settings
- Flicker and noise free dimming with all Touch and DALI LED drivers due to amplitude dimming (AM)
- Low output current tolerance
- Low output ripple current Long lifetime at high operating temperature
- Easy current selection via dipswitch
- Dali dimmable & programmable
- 1-10V dimmable, and xed-output versions available

TECHNICAL DATA

Rated input voltage:

220-240 V

Rated input frequency range:

50-60 Hz

Power factor:

0.9

Efficiency:

89

Isolation input to output:

SELV

Output voltage:

23-46 V

Output current:

0.7/0.8/0.9/1.05 A

Output current tolerance:

5 %

Output current ripple LF:

<4 %

Output power:

16.1-48.3 W

Xitanium 48W 0.7-1.05A 46V TD DS 230V I **TAKTON**

ORDERINGINFORMATION

Article number:

9290 028 51780

Packaging, ctn:

24

Weight per pcs:

175 gramm
